The Holden Commodore is a car produced by Holden, the subsidiary of General Motors, inside Australia and formerly inside New Zealand. It is a popular model among car enthusiasts and is known for its reliability and practicality. The Commodore has been sold in various versions, including the VT to VZ models. The 2006 models were particularly popular due to their advanced features and performance. The Holden Commodore is a classic example of the mid-size sedan category, offering a balance of style, comfort, and functionality. This makes it a favorite among families and professionals who value both space and efficiency.
